UPnP Portmap Table

Active	Protocol	Int. Port	Ext. Port	IP Address
--------	----------	-----------	-----------	------------

UPnP Help

Universal Plug and Play (UPnP) devices, such as Internet app computers, access the network to other devices as needed. You can automatically discover the other registered UPnP device network.

Turn UPnP On

UPnP can be enabled or disabled automatically device configuration setting for UPnP is disabled. router will not allow any device

If it doesn't work, then try this:

Turn on Port forwarding.

Enable Port Forwarding
